ADDITIONAL GUNNERS

Frank Colvin Discusses the Mechanical Appliances of the Modern Man-of-War.

Frank Colvin, of New York, who was graduated from Annapolis and served as an officer in the navy for six years, who is now with the mechanical appliances at their command, and our modern men-of-war their wonderful accuracy of aim, as demonstrated by their work at Matanzas, is no surprise. He said: "Thus, range firing, one of the most important factors in accurate gunnery, is purely a mechanical operation, quickly performed, and requires no trigonometrical expert or elaborate calculation, as many people doubtless think. It is done by two automatic electrical machines at the bow and stern of the vessel respectively. The two triangulate the point on the shore or elsewhere whose range is desired, and by an ingenious mechanical system, indicate almost instantly its range. Thus, when Captain Chadwick of the New York gave orders to Naval Cadet Boone at the Matanzas engagement, to open fire with the eight inch waist gun on the fort at Punta Gorda he is reported as saying: 'The range was 4,000 yards. The machines I have referred to had already indicated this fact, and all that it was necessary for the Captain to do was to report their reading to the officer in charge of the gun.'

"Another factor which contributes much to accurate gunnery is the immense initial velocity of the projectile fired by modern guns, by reason of which a comparatively flat trajectory can be maintained up to 2,000 and 3,000 yards and even greater distances, while little or no consideration has to be given to the wind unless an exceedingly strong cross wind is blowing. By flat trajectory is meant the aiming of a gun without the use of any elevated sights. The gunner, of course, has to know his gun—how far it can be counted upon for accurate work with a flat trajectory and what elevation to give after that, which, of course, requires much experience.

"The Spanish are proverbially careless and indifferent regarding this work, hence it was not surprising that their gunnery should show up in a sorry light by the side of the American 'jackies.' There is great emulation among the different ships of our fleet, as well as the different gunners on the same vessel, regarding the most exacting of the fleet that last famous shot in the Matanzas engagement will be the hero of the fleet for many a day to come."

THE COST IS HEAVY.

Secretary of War Asks for \$34,000,000 in Addition to the \$50,000,000.

WASHINGTON, D. C., April 29.—The secretary of the treasury today received from the secretary of war estimates of deficiencies in appropriations required for the use of the war department for the remaining two months of the present fiscal year aggregating \$34,019,997.

In his letter Secretary Alger says that the act of Congress approved April 22 and 26, 1898, authorizing the enrollment of a volunteer army and placing the regular army on a war footing, will necessitate an increased appropriation for the organization, support and maintenance of the new forces.

The several items in the deficiency appropriation asked for are as follows, cents omitted:

Signal service of the army, \$21,000; pay etc., of the army (volunteers), \$5,760,601; Pay, etc., of the army (regulars), \$1,425,233; subsistence of the army, \$2,739,043; regular supplies, quartermaster's department, \$1,000,000; incidental expenses, quartermaster's department, \$750,000; horses for cavalry and artillery, \$1,500,000; barracks and quarters, \$300,000; army transportation, \$600,000; clothing and camp and garrison equipage, \$10,000,000; contingencies of the army, \$20,000; ordnance department, \$3,747,405; medical and hospital department, \$750,000; equipment of engineer troops, \$50,000; torpedoes for harbor defense, \$500,000. Expeditionary force to Cuba, \$150,034. Total, \$34,019,997.

TO BEGIN WORK.

Lake County Telephone Company Pushing Their Line.

The Lake County Telephone Company has recently incorporated and will begin work to connect the various towns of the county. The company consists of F. B. Towell and J. E. Clark of Libertyville. They have a franchise granted by the Lake County Board of Supervisors permitting them to operate and maintain a telephone line in Lake county and the Libertyville village board have granted them a franchise through Libertyville. They have asked for a franchise of the Grayslake village board which will undoubtedly be granted them.

It is their intention to connect Roundout, Half Day, Libertyville, Rockfeller, Grayslake, Fox Lake and in fact many of the prominent lake resorts in northern Lake county and establish a "central" at Libertyville. The line will connect with the Chicago Telephone Company's line at Roundout, thus giving a complete and first class service—Lake County Independent.

SOLDIERS ARE STARVING.

They Would be Glad of a Chance to Throw off the Spanish Yoke.

MONTE, Ala., May 3.—The American bark John R. Stanhope is in port from Honduras, a report of the military conditions existing there, being verified by the mate, Thomas Coburn.

Because of demonstrations hostile to Americans, the officers and crew of the vessel did not frequent the shore, but during their visits to the city they saw and heard enough to convince them that the Spanish soldiers are utterly unable to do anything but an inferior American force.

A cavalryman, who could converse in good English, told them that there were 40,000 Spanish soldiers in the city, and that 600 had died during the week the Stanhope was there, of neglect and want.

From the same source Capt. Marshall learned that the whole troop were so discontented with their treatment that they would willingly go over to the insurgents, but the relief of freedom and sufficient food were denied them, because the insurgents distrusted them and had refused all overtures for such a union. They were ragged and dirty in appearance, unsoldierly in bearing and discipline, and their courage had been killed by vicissitudes and ill-treatment. Mate Coburn said that the negro tramps on the wharves of Mobile looked respectable in comparison and were infinitely better off.

WILL HOLD THE ISLANDS.

Cabinet Decides to Occupy the Philippines as Soon as Possible.

WASHINGTON, D. C., May 3.—The cabinet meeting today resulted in a decision to await a report from Commodore Dewey and then to send him the number of troops he deems necessary to enforce our control of the Philippines.

The whole session was consumed in a general discussion of past events. The administration has practically decided to occupy the Philippines with a strong military force as soon as possible after Commodore Dewey's report, which is expected by tomorrow, has been received.

For this purpose Pacific slope troops will be used, and it is expected that at least 20,000 will be on the island within the next ten days.

There does not seem to be any doubt as to the government's purpose to hold these islands pending a final settlement with Spain, when they will be used as a collateral to secure the payment to the United States of a war indemnity.

WILLIAM AND JOSEPH.

The Two Emperors Disagree About the Attitude of Germany.

LONDON, May 1.—The Vienna correspondent of The Sunday Special tells a tall story to the effect that Emperor William left Dresden last Saturday after a disagreement with Emperor Francis Joseph, arising from a heated discussion had in the afternoon relative to the Spanish-American war, in which the Austrian Emperor vainly tried to convince the Kaiser that it is his duty and interest to assume, if not an unfriendly attitude towards the United States, a more friendly neutrality to Spain. Emperor William reiterated that Germany's interests pointed to a policy of strict neutrality and the retention of the good will of the mighty republic. Emperor Francis Joseph was much hurt by the Kaiser's heated, impulsive language, and plainly showed his displeasure at the banquet given in the evening, the situation growing so unpleasant that Emperor William took his departure before the close of the banquet.

SAINTS STAY AT HOME.

Baneful Effect of a Sermon by Apostle Young Shown at the Recruiting Office.

SALT LAKE, Utah, April 29.—A letter from the first president of the Mormon church to Gov. Wells on the subject of enlistment has caused something of a sensation. The fact that Apostle Brigham Young, in a discourse at the Tabernacle last Sunday, counseled the saints to remain at home, and that the recruiting office in this city the opening day secured but 47 volunteers, was regarded as reflecting upon the patriotism of the people, and the president of the church pressed the saints to enlist.

Building Did Not Catch on Fire.

EDMONT NEWS.
To correct the statement in THE NEWS of last week regarding a fire in my home, I would say that although the stove stood close to a partition newly lathed it did not take fire nor was the lath colored by the smoke in the least. Trusting you will make this correction I am,

LIGHTS AND SHADOWS

It was on the elevated cars, going west and everybody was disturbed by a man who was looking under the seats and here and there.

"I had it on just before I came in, and 'was a tight fit.'"

When the search was over, the man looked so disconsolate that the passengers who had moved to accommodate him tried to comfort him.

"Was it very valuable?" asked one.

"It was a set ring and worth money," answered the man, "but 'tisn't that—I have worn that ring for ten years off and on."

"A ring of association?" suggested another.

"Yes," said the loser, "my mother-in-law gave it to me."

A curious little trill of appreciation ran through the crowd of interested listeners, and a woman remarked softly:

"It is probably a souvenir?"

"Yes," she gave it to me when I married her daughter."

"Is she alive?" asked a curious passenger who was hanging to a strap.

"You bet she is—very much alive," came the quick rejoinder, "and I hate like poison to go home and tell her I lost that ring."

"But you can explain that it was an accident."

"Explaining nothing. She wouldn't believe me worth a cent. She'd just look me in the eye at short range and ask me what I had done with the ticket—see?"

A man must be a hero if he wins that name in California; and when the mountain men call George Gard "a brave fellow" it counts as much among his kind, as would a Victorian cross on his bosom.

Of course, Gard is not known very well east of the Rockies; he is only a United States marshal; but Evans, the outlaw, knows him pretty well and fears him more than he fears the troops of the state he has preyed on so long from his fastness in the hills back of Rollands.

For the grizzly little officer has led a pack of fighting deputies after the bandit gang more than once, when bullets whizzed about his head like wasps, and he was and his own limbs were heavy with lead.

But there is another rarer, more conclusive proof of his bravery than that; a story of his life that has never been told.

Years ago, when the blue eyes that glanced from the shadow of his slouched hat were the eyes of a boy, he met a girl in those very mountains. A girl with a face as softly lined as a wild rose, and with the gleam of western sunlight in her hair. She was shy, sweet and innocent, and the heart of the young man fled to her on the strong, splendid wings of first love. Day after day they met. He did not even know her name, and only vaguely wondered that she lived in that wild and lonely place. But she was more curious and asked him why he roamed that way.

So he told her who he was, and added—with love's foolish, beautiful, incautiousness—that he was hunting for the highwayman, Bob Evans.

"And if you find him—what will you do?" she asked.

"Take him—dead or alive—or die myself in trying to."

She laid her little brown hand in his. Her face was quite white, but her voice was low and did not tremble.

"You came to tell me that you loved me, to-day," she said. "You will not do so, for I am Bob Evans' daughter. But I want you to forget me—forget all that I have told you—because it will be hard for me to remember that you loved me when every day, every hour, I shall pray that my father may see you first and kill you."

She turned away and he watched her until the trees closed around and hid her and the light and happiness faded out of his life forever.

For 20 years he has hunted the bandit, and the two men had grown to regard each other with superstitious awe; but a week ago the intrepid marshal fell at a shot from Evans' rifle and today is dying, while in a cabin in the mountains a gray old woman sits, rocking herself to and fro in agony because her prayer has been answered.

Chicago Journal.

A tramp near New York city is a Frenchman; and his family know little more about English than he does. His suburban hotel stands in the center of a square filled with large trees. When the proprietor wants to call attention to this advantage he put on his cards: "The best shady hotel around New York." The reputation of the place is beyond reproach, and the proprietor does not know yet why so many persons smile when they read the line quoted.

When Max O'Rell was staying once at a hotel, he had occasion to complain of the marked incivility and neglect of a waiter. The proprietor apologized, assuring Max O'Rell that no such complaint had ever been made before. When the waiter was recommended, he explained himself thus: "It's not to be expected that a self-respecting Scotchman could wait on him with civility. Didn't he say we took to the kilt because our feet were too large to be got through trousers?"

hand to select your patterns from our styles.

LOOK HERE FOR LACES

And nine times out of ten you can find just what you want. In some stores not much attention is paid to this line. Here we aim to show the season's most desirable styles as soon as they come out. Whatever you desire, from the narrowest edge to the most elaborate designs, will be found in our lace stock. Its freshness does not mean high prices however. In fact, we believe they are lower here than elsewhere.

RIBBONS

Are more in demand than ever before, and we are better able to supply that demand than ever before. Special styles for sashes and ties are much sought for now, and may be seen here in all the latest conceptions. We buy ribbons at extremely low prices, and, therefore, can offer extra values. Glad to show you some if you will give us a chance.

OUR BOYS' SUITS

Delight the boys and please the mothers, and why shouldn't they. It would be hard to find suits of equal merit at such low prices elsewhere. All self-respecting boys like to be well dressed—and most mothers like to have them so. It's easy enough if you bring the boys to us. We can dress them nicely at small cost if we have a chance.

WISCONSIN'S SEMI-CENTENNIAL

Time will work wonders. Half a century of growth, progress and enterprise, has developed the crude, wild territory of Wisconsin into the proud, fertile State of today. Fortunate in its possession of rich mineral resources, splendid timber lands and fertile soil, by the aid of the mighty manufacturing plants that have been erected, and the farms developed, to properly celebrate the progress, Wisconsin is making great preparations for the Centennial to be held next summer.

A very important factor in the up-building of Wisconsin is a railway system known as the Wisconsin Central Lines, which traverses the State from the southern boundary north to Lake Superior and west to St. Paul and Minneapolis. Running through the rich mineral belt, the forests of northern Wisconsin; iron ore deposits, beds of clay, kaolin and mazel, together with plenty of hardwood, as well as pine, offer extraordinary inducements for the location of factories and manufacturing plants. Low freight rates, unexcelled facilities for reaching the market, and quick transit of shipments offer every inducement to manufacturers and others interested in obtaining detailed information by addressing W. F. Kellen, Industrial Commissioner, Milwaukee, Wis. A word to the farmer, owner of moderate means. Farming lands in northern Wisconsin are of the best and can be obtained cheaply, and at reasonable terms. Any man of energy, industry, and ability can build a home for himself and family, and make a living on one of these farms. Illustrated pamphlets and maps on request by Frederick Abbott, Land Commissioner, Milwaukee, Wis. J. F. WILKINSON, Gen'l Mgr. Bureau of Johnson, G. F. A.; JAS. C. POST, Gen'l Pass. Agt., Milwaukee.

Mr. and Mrs. A. J. Leonard were Grayslake visitors and society people with Mrs. Adam's May 20.

We notice that the fine lot between the residence of W. B. Higley and the Gardiner Hotel is for sale.

Mrs. John Hook Jr. is reported as improving at this time. Mrs. W. Strows and Miss Jennie Dombi are also upon the sick list.

The school entertainment given last Thursday evening was a success. A large attendance made it possible to purchase an organ for the school, which will be done at once.

Following is a list of unclaimed letters in the Grayslake Post Office at the close of the present month:

Gus Burdick, S. H. Scott, Peter Kelly, Chas. T. Loring.

It is a great leap from the old fashioned doses of blue pills and nauseous physic to the pleasant little pills known as DeWitt's Little Early Risers. They cure constipation, sick headache and biliousness.

A bag staff was raised here with appropriate ceremonies on Tuesday afternoon. It is 55 feet high and seven feet in the ground. The village possesses a fine flag, purchased several years ago.

D. G. White wishes to call special attention to the News Agency in connection with his barber shop. Any paper published will be furnished or subscriptions taken. Evening and Sunday papers on sale. Also local agent for the Antioch News. Leave your orders with him.

The Village Board met Monday evening, the principal business on hand being the engaging of a marshal. Mr. McMillen resigned. We understand that nothing definite was done and that the village is at present without that necessary officer. Mr. McMillen has been an efficient officer and his resignation is a matter of regret to all.

We are requested to announce that Grayslake Von Auker. He will begin service next Sunday morning. Let every one, both old and young, turn out to hear him. He is a marvelously eloquent man and one whom it is worth while going a long distance to hear.

BRISTOL, WIS.

Mrs. Loesch, of Salem, called on Mrs. James Bryant on Friday last.

Miss Addie Barter, of Pleasant Prairie, was the guest of Miss Alice Stevens on Saturday and Sunday last.

Rev. W. J. Carr spent the early part of the week in Milwaukee.

Misses Bertha and Anna Ramus were Kenosha visitors on Wednesday of last week.

Miss Avery, of Chicago, was the guest of Mrs. Florence Ellis the early part of this week.

Arthur Gaines made a short call on Saturday last.

Mrs. George Willett and Mrs. Fred Lavery spent Saturday in Kenosha.

Miss Anna Foulke was the guest of her brother, Francis Foulke, of Kenosha, on Saturday and Sunday last.

Miss Tina Watson, of Genoa Junction, spent a few days of the past week with Mr. and Mrs. C. Bristol.

Mrs. Florence Ellis and daughter Grace spent the greater part of the past week with relatives in Chicago. They went to attend the funeral of a sister-in-law of Mrs. Ellis.

Frank and Lula Rowbottom entertained a few of their friends last Saturday evening. A pleasant evening is reported.

Mrs. Williams went to Antioch on Saturday last to spend a short time at her home in that village.

Mrs. Addie Jackson spent Tuesday of this week in Chicago, replenishing her stock of summer millinery.

The Young Ladies Missionary Society will hold their quarterly tea at the home of Mrs. C. Bristol on Friday afternoon of this week.

The time reading which was given in the M. E. church last Friday evening, was well attended and much enjoyed. Each number on the program was admirably rendered. We wish to extend our hearty thanks to all who so kindly helped us in making the entertainment a success.

Miss May Stanborn, who has spent nearly four years attending and teaching school at Red Cloud, Neb., returned to our village on Wednesday of last week. Her many friends bid her a hearty welcome home.

M. L. Youm, Cameron, Pa., says "I was a sufferer for ten years, trying most all kinds of pills and remedies, but without success. DeWitt's Little Early Risers was recommended to me. I used one box. It has effected a permanent cure. As a permanent cure for piles DeWitt's Little Early Risers has no equal. D. Sugar, Lake Villa; Edgar L. Larkin, Antioch; Geo. Thomson & Co., Grayslake.

LAKE FOREST.

It is expected that the electric cars will be running about June 15th.

The lady Maccabees of this city will give an entertainment May 18th.

Warner Preston, of the Academy, who recently underwent a surgical operation for appendicitis, is rapidly recovering.

The College Glee Club went to Libertyville Friday evening, where they gave an entertainment to a large and appreciative audience.

Miss Harriet C. Witt, of Belvidere, Ill., has been engaged to take the place in our public school, vacated by Miss McMahon.

Miss Witt is a graduate of the Belvidere High School.

Miss Kate McMahon has resigned her position in the public school, intending to take a rest, after many years of continuous teaching. Miss McMahon has taught in our schools ever since 1884, with the exception of one year. Six years of this time she has acted as principal.

Expulsion from the Ferry Hall Seminary at Lake Forest is feared by fourteen young women, who have broken one of the strictest rules of the school in accompanying fourteen young men to a party without the permission of the faculty or the presence of a chaperon.

The young men are also in the scrape, and fear summary action by the college authorities.

It is said that the young women, aided by their gallant escorts, left their rooms on the first floor of the seminary via windows were used. A report of this occurrence reached the ears of the chaperon, Miss Sargeant, after the ball, and now the young women and men are anxiously awaiting the decision of the faculty.

Golf is giving every indication of being more popular than ever this season, and the activity already shown at the Onwatsin club, at Lake Forest, indicates a most prosperous season. The entire course of eighteen holes was informally opened yesterday, and in spite of the unpropitious weather a representative gathering of members went out to the clubhouse.

A number of the more enthusiastic players did not allow the dampness to keep them from trying the links. Others contented themselves with examining the clubhouse, where refreshments were served all day.

Mr. Charles Fargo took a party out from the city, and after luncheon was served a 6:30 o'clock Mr. Fargo gave a dinner for twelve. At noon a number of luncheon parties were given. It is the intention this season to give special attention to dinner, supper and luncheon parties.

The clubhouse was informally opened two weeks or more ago, and it is doubtful if a formal opening will take place, although Decoration day is to be made a special event. A series of golf and tennis games will be played and a number of dinner parties will be given. Mr. Sydney Williams, secretary of sports and pastimes, has as yet no regular schedule of games arranged, but will soon prepare a list of matches and tournaments.

The farmer, the mechanic and the bicycle rider are liable to unexpected cuts and bruises. DeWitt's Witch Hazel Salve is the best thing to keep on hand. It heals quickly and is a well known remedy for piles. D. Sugar, Lake Villa; Edgar L. Larkin, Antioch; Geo. Thomson & Co., Grayslake.

WILMOT.

Miss Julia Runkel, of Kenosha, is spending the week with her parents.

Mr. Radtka and family will move to Antioch tomorrow where he will start in business.

The Wheel of Fortune made every post a winning one in the four-mile race at Ingleside Saturday afternoon for the Ingleside stakes of \$3,500. There were only five horses in the race, the Wheel, Buckwa, Sir Dilke, Sweet Favordale and Sharon Lass, and they finished in that order and strung out over two furlongs.

Horsemen and horses from all over the country are in Chicago to attend the opening of the local racing season Thursday at the Lakeside track. Everything is in readiness for the inauguration of what promises to be a most successful series of race meets. The races at Lakeside will last fifteen days and will be conducted under the auspices of the Lakeside Jockey Club. Five or more events will be run each day and on days with favorable weather it is probable the card will be increased. During the meeting the sum of \$30,000 will be offered in purses. Some of the speediest horses in America will run for portions of the money. Seven hundred thoroughbreds are now quartered at Lakeside, and 100 more are expected at the stables this week.

Entries for the stake events at Washington Park and Lakeside closed Tuesday. They will not be given out for some days yet.

Straw Shipped. A large consignment of straw from this place Wednesday evening.

Between thirty and forty Chicago people took the late train from here for the city Sunday evening.

The Convention for the nomination of county officers, in Lake County will be held Sept. 10th, 1898. The official call for this convention will be given out later.

Numerous fishing lights are to be seen on the lakes almost any evening in the week now. The game and fish laws seem to have little if any terror in them for the boys now-a-days.

The Modern Woodmen and Knights of the Maccabees have decreed that all policies held in these orders shall be paid in full to members who enlist and are killed during the war with Spain.

A Patriotic Social will be held at the home of John Welch Wednesday evening May 11. Everyone come prepared to contribute to the entertainment of the evening and "hurray for Uncle Sam."

About 7,000 pounds of milk is being handled daily at the creamery here. The stock is being rapidly paid up and the members of the Association will soon be in a position to realize on their investment.

The Republican convention for the nomination of delegates to the republican senatorial and state conventions, as will be seen by the call in another column, will be held at the town hall in the village of Libertyville, May 21, 1898, at 1:30 p. m.

The Kenosha Telegraph-Courier printed the delinquent tax list of Kenosha county the past week. The list occupied a trifle over two columns of space. Some difference between that and the amount of space the Lake County delinquent tax list occupies.

Look for the opening chapters of our new serial entitled "Beauty's Power," by Charles M. Braeme. This story is absorbing interesting and you should not fail to read it. If you are not a subscriber to THE NEWS subscribe now and get the opening chapter, shortly to appear.

The Chicago & Wisconsin Inland Lakes Electric Railway company has let contracts for the construction of 70 miles of track to be laid this summer. The present proposed terminals of two branches are at Elgin and Winnetka, Wis.

Thirty-five years make a generation. That is how long Adolph Fisher, of Zanesville, O., suffered from piles. He was cured by using three boxes of DeWitt's Witch Hazel Salve. D. Sugar, Lake Villa; Edgar L. Larkin, Antioch; Geo. Thomson & Co., Grayslake.

Will Hodge has sold his barber shop on Main street to H. A. Radtke, who formerly ran a barber shop at Winnetka, Wis. Mr. Radtke has moved the shop from the building heretofore occupied by Mr. Hodge to the Sibley building on Main St. We wish the new management abundant success.

The debate Saturday evening between the scholars of the High School assisted by their professor, and the orators of the town resulted in a victory for the former. A very interesting program was rendered in which many of the scholars from the primary grade took part, performing well the parts assigned them.

The reason of this year is not as long as it was last year. The reason of this year is because of the railroad. Editor Burke of Antioch, Ill., has been running proof for the last year. The list makes 46 of matter this year as against 52 last year. It costs money to have work done, and there is no wonder Mr. Burke fought for it in the courts.—Waukegan Daily Sun.

The May issue of Demorest's Family Magazine reaches us today with choice and timely articles on the current topics of the day. No American magazine is more heartily welcomed to the homes of the people than Demorest's. Its articles are always interesting and helpful to each member of the household, old and young alike. The current number of the magazine contains among other features a well written article on the life work of Frances E. Willard, from the pen of Truman A. De Weese, also the third installment of Harriet Monroe's interesting description of the Spring of the "Bright Gossip on the Fashioning of the new and numerous short sketches from the pen of well known writers complete a very creditable issue of Demorest's. Antioch, Ill. is to have a co-operative creamery. The plant will be located about the first of June.

Postmaster: Williams has placed the flag on the ground beneath the stately emblem of America, at the postoffice.

A sample of the pop made at the new pop factory at Grass Lake has been placed on sale here. It makes a very fine drink, and is far superior in many respects to most of the pop manufactured now-a-days.

We do not believe that our readers will lack reading matter for some few days to come when the present issue of THE NEWS is placed in their hands. The tax list alone will give any of our readers who are diligent enough to peruse it a couple of days employment at least.

The young ladies of Whitewater, Wis., recently advertised a "bloomer" social and all the town turned out, the feminine population to get ideas on spring cycling costumes, of course; while the young men came for the good of the cause. The "bloomers" were there in profusion, but they were not of the kind looked for by a large percentage of those present. The "bloomers" were flowers and they were "blooming" everywhere.

"Editing this paper is a nice business," says the Mariette Eagle. "If we publish jokes people say we are 'rattle headed'. If we don't we are an old fossil. If we publish original matter they say we don't give them selections enough. If we give them selections they say we are too lazy to write. If we remain in the office we ought to go out and hustle for 'locals'; if we go out then we are not attending to our business. If we don't go to church we are a heathen. If we do then we are hypocrites. If we wear old clothes they laugh at us; if we wear good ones they say we have a little more than some will say we stole this item from our exchanges, and so we did."

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. For sale by W. H. Emmons, Antioch; Geo. Thomson, Grayslake.

We must again call the attention of our correspondents and others to the necessity of signing their names to all communications sent us for publication. If you do not wish to have your name appear in connection with a communication you send, why say so, but do not fail to sign your name to some portion of your letter, just the same. In no instance will the name of a contributor to the paper be made known to the public unless by the special consent of him or her, unless there should arise an occasion where in justice to ourselves we would be compelled to disclose a writer's identity, as we do not assume responsibility for the utterances of our correspondents.

We must request all who have personal grievances or attacks to make on the private character of any one to adjust the same outside of the columns of a newspaper. Write nothing for publication in a newspaper that you are not prepared to prove, avoid all attacks on the character and reputation of everyone, no matter whom, and above all, sign your name to all communications.

Got a Franchise.

At their meeting Monday night the Libertyville Village Board granted to E. C. Weeks a franchise for an electric railroad. The ordinance recites in full the rights and privileges thereby granted and appears in another column. Mr. Weeks and the company of which he is a member and representative propose to build an electric road, starting at Libertyville and continuing to the "chain of lakes" in northern Illinois and southern Wisconsin. As stated in a previous issue the St. Paul railroad company will put on more trains to Libertyville to connect with the electric road which will undoubtedly make this the most popular as well as the cheapest route to the lakes.

Just improvements are contemplated at the various summer resorts, which will tend to make them the most popular in this section of the country. Winter sports and amusements will be arranged for on a large scale, with a view to attracting traffic for the new road, and patrons to the lakes during the winter months.

The scheme is an entirely feasible and practical one and the men back of the company who propose building the road are reliable.—Lake County Independent.

W. S. Westlake attended the funeral of Fred Shorn in Chicago the past week. Mr. Shorn, it will be remembered, spent some time in this city the past winter and was well liked by all who knew him. His funeral, which occurred Thursday last, was largely attended by friends and acquaintances, who expressed in glowing terms their appreciation of his many amiable qualities.

Skilled in Athletic Sports.

In speaking of Chicago young women who have won renown in athletics the Times-Herald has this to say of Miss Florence Brophy, a young woman well known to the residents and habitués of the Fox Lake summer resorts:

One of the few Chicago girls who understand the ways of the wind and the ways of a sail boat is Miss Florence Brophy. For three years she has been the captain of a pretty craft called the Surprise, which sails the waters of Fox Lake. She never learned the art of steering, sailing or shifting according to the diverse winds, but intuitively it all from intuition and love of the sport. Miss Brophy in her three years of nautical experience, has sailed in ten races and won seven of them. Two cups have become her trophies, and several prizes. She is noted for her careful seamanship and for her knowledge of the will ways of the deceitful Illinois squall. Only one upset has ever befallen her, and that was in one of those fierce and unexpected gusts of wind which makes lake sailing so dangerous. Miss Brophy is not "the cook and the maid and the captain hold, and the crew of the captain's gig" on board the Surprise. Although she fills the office of captain, her sister, Miss Jean Brophy, makes an able second officer, mate and crew, having more recently mastered the intricacies of sailing; both sisters swim.

Miss Brophy is also a huntress. She is fond of rifle shooting, and when nothing better offers does not scorn a target. She has quite a variety of shooting irons, all of the most up-to-date and complete description. Small birds have been Miss Brophy's game so far.

Her love of outdoor exercise does not cease with the exhilaration and excitement of sports, the love of racing and shooting birds a-wing. She is fond of walking, riding, driving, and the now-a-days much scorned bicycle.

Salute.

The junkie has a soul for war, As fierce as a bird of prey, And never a foe has dimmed his star. Nor driven his ships to bay. But as for the Spanish sailor, A craven soul is he— And will turn our guns on the Spanish sons Till their fleets are swept from the sea!

Oh, well for the star of the hunter, On America's soil, But never a power was conqueror, Over a people brave and free. For the Spanish troops' decision Who took on iron toe, An open field for assault. Makes graves for the deeds of war, While the specter of lust is grim in the dust And the hope of his fate laid low.

And built to his soldiers and sailors Who fight as no men fight— Till right is even stronger than might And sunshine covers the world!

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgetstown, Pa. For sale by W. H. Emmons, Antioch; Geo. Thomson & Co., Grayslake.

America, Our Country.

GLORY FOR AMERICAN ARMS.

THE news of Commodore Dewey's victory over the Spanish fleet at Manila, Sunday, was received here Monday with great rejoicing. Many a heavy burden of anxiety was lifted from the hearts of the American people as the glad tidings were borne flashing and pulsating from city to city across the continent. Never since the days of the civil war did anything happen to so rouse the enthusiasm and elicit the heartfelt gratitude of the American people to Almighty God as did the victory of our gallant seamen at Manila. Far from their native land, separated from all the loving associates of home and country, and beset on all sides by innumerable dangers, these daring seamen fought bravely and well. Many an anxious mother in this broad land of ours today kneels in fervent joy and pours forth from her heart a prayer of thankfulness to God for His mercy. For days and nights this nation awaited anxiously the result of this battle. The papers teemed with praise of the magnificent vessels comprising our Asiatic squadron, and no one doubted the ability and courage of the American seamen aboard them.

But here was mother away back in the States, while perhaps her only son was aboard one of the American cruisers, so soon to grapple in mortal combat with the vessels of Spain. How was it with her? She looked deeper into the matter than many of the rest of us did. While fully confident of the ultimate success of our fleet, the question with her was, how will it result with me and mine? Will my boy be killed, or will the glorious news of America's victory be embittered later by the heartrending tidings that my boy is dead—was killed in action.

Ah, these were bitter reflections gnawing at the heart strings of many a mother in our land last Friday and Saturday, when it was seen that a conflict between the two fleets must inevitably come, and that in a very few days, too.

May the Heavenly Spirit comfort those poor fathers and mothers whose sons will go down in action in the cruel war now upon us. May His blessing rest upon them and lighten the burden of their grief.

WAR AND OUR SHIPPING TRADE.

As might have been expected, the war with Spain is operating disastrously upon American shipping, principally upon the West Indian and Southern coastwise trade. The New York Journal of Commerce reports that while there is still a fair general movement of freight northward along the coast from points as far south as Mobile, "the West Indian trade in either direction is practically at a standstill, except of course in foreign bottoms." The captains of foreign ships are taking advantage of the opportunity by charging excessive freight rates, and this is deterring many shippers from sending freight in either direction. Consequently the traffic between the United States and the West Indies is exceedingly light. Shippers of yellow pine lumber from Southern ports are also experiencing difficulty in getting vessels to carry their lumber to the Northern ports. American carriers are loath to venture on Southern waters, and as foreign vessels are barred from the coastwise trade, the few lumber carriers which take the risks of runs to and from the Southern lumber-shipping ports are enjoying high freight rates.

We understand that John G. Donnelly, of Woodstock, formerly a member from this legislative district, is again laying his wires for the nomination as minority representative. If Donnelly represents anything or anybody it is corporate interests, and our democratic friends must be hard up for legislative timber if they do not turn him down.

From all parts of the state a very general feeling seems to exist in favor of returning all the Illinois Congressmen. This is as it should be. In the time of war or national complications personal differences or resentments should be laid aside in the interest of patriotism, loyalty and unity. The news is patriotic.

A NEW SUFFRAGE DEVICE.

THE Constitutional Convention of Louisiana has hit upon a new device for restricting the suffrage in that state. No secret has been made of the fact that the convention is held chiefly for the purpose of devising a suffrage restriction, and that the main object of the restriction is to eliminate the negro vote just so far as possible without curtailing the white vote.

Several weeks have been spent upon this problem, and the solution agreed upon is a compromise which does not entirely satisfy anybody, but which is accepted as attaining the desired end better than anything else proposed. The main qualification for the suffrage is ability to read and write or the ownership of \$800 worth of property, upon which taxes are paid, but this would exclude a great many white voters. Consequently it is provided that any person who was a voter prior to January 1, 1867, and the son and grandson of any such person, duly qualified by age and residence, shall retain the suffrage, regardless of the educational or property qualification; and that citizens naturalized prior to January 1, 1898, shall retain their right to vote.

As no negro had the right to vote prior to 1867 and practically none are naturalized, this excludes all of that race who do not possess the main qualifications, property and education. The question that remains open and that is pretty sure to be put to a test is whether this device will be sustained as valid under the Federal Constitution, which declares that the right to vote "shall not be denied or abridged" on account of race, color or previous condition of servitude. Any restrictions that applied to both races alike would not violate this inhibition. But in the measure above referred to the negro would be the only one deprived of the right to vote.

MONEY vs. PATRIOTISM.

Our esteemed contemporaries, head-line writers and Boston correspondents suppose it is true that William K. Vanderbilt, Jr., is drilling in the ranks of Harvard. What of it?

Does the possession of great wealth by his father make it less the duty of this young Vanderbilt to join in the defense of his country—or more? His family has rather more to lose than most of us in the event of hostile invasion. We believe the ratio of possessions of Vanderbilts to the rest of us is something like that of \$75,000,000 to \$600. It occurs to us that the Vanderbilt family owes rather more to the nation than the nation owes to it, and since a wabbling Supreme Court has decided that the debt cannot be paid through the medium of an income tax, perhaps some part might be discharged by personal service in a moment of national danger.

We have never in the history of this nation looked in vain for gallant young patriots in moments of national peril, but they are not drawn from the ranks of the millionaires. Nathan Hale and Theodore Winthrop had in their veins the best blood of New England, though in their pockets scant wealth. They have their successors today, but we don't read hysterical accounts of their preparation for war, for about them the glamour of the dollar is not cast.

EMPEROR WILLIAM IS WORRIED.

EMPEROR WILLIAM, of Germany, is greatly concerned lest the United States take possession of the Philippine islands. He says that this country should be content with the victory already won in these waters by Commodore Dewey's squadron. We hasten to assure "William" that the American people are well satisfied with the result of Sunday's battle in Manila bay, but with the memory of the Franco-Prussian war, and the wrestling from France of the provinces of Alsace and Lorraine fresh in the minds of her people, Germany is hardly in a position to cry out against land grabbing.

Germany had no compunctions in taking the French provinces and in holding them by force of arms until the indemnity demanded was paid.

If the United States takes possession of the Philippine islands they will be held simply as security for the indemnity that Spain will be forced to pay as a penalty for warring with this country.

This country is not seeking conquest of foreign territory. It is not a part of our policy to prey upon others, and inasmuch as Germany has made it a precedent she should be willing to concede to America the right to hold an enemy's property as security for the payment of indemnity.

While the factional fight going on in this legislative district among our democratic friends is no part of our funeral, yet in common with all other residents of the state of Illinois we are affected by good or bad laws in proportion to the interests at stake. Corporate lobbyists in either party should be turned down and representative men of the common people elected in their stead. Just now the democrats of this district have a duty to perform in turning down men of Eidlstein and Donnelly's stripe and electing such men as Hon. George Wait or some other democratic representative of the people, and to this end the party in Lake County should unite with the better element of the party in McHenry and Boone counties and see that men of John C. Donnelly's stripe are kept in a place where they can do no harm.

"Don't fool with your Uncle Sammel," will probably become a current phrase in continental Europe.

Commodore Dewey's fleet has demonstrated its ability to take care of American interests abroad.

WIKES Uncle Sam gets fightin' mad he's a bad man to tackle, as Spain has learned to her cost.

Nowly did the American tars under the command of Admiral Dewey remember the Maine.

SUNDAY was a "dewey" day in Manila harbor.

WELL, Spain still has General Weyer left, anyway.

Republican County Convention.

A Republican County Convention will be held at the Town Hall in the village of Libertyville, Lake County, Ill., on Saturday, May 21, 1898, at 1:30 o'clock p. m., for the purpose of selecting 20 delegates to the Republican Senatorial Convention to be held at Woodstock, McHenry County, Ill., on Saturday, June 4, 1898, and also for the purpose of selecting delegates to the Congressional Convention of the Seventh Congressional District, to be held at Springfield, Illinois, on Tuesday, June 14, 1898; and also for the purpose of selecting delegates to the Republican State Convention to be held at Springfield, Illinois, on Tuesday, June 14, 1898.

The following is the list of delegates for each primary district in said county on Friday, May 20, 1898, at the usual hour. The Representatives for each primary district will be 1 delegate for each 20 votes, or major fraction; cast for the Republican candidate for President in 1896. Pulse of the Press.

Here comes Russia wanting two battle ships made to order in the United States. Doesn't Russia know this is our busy day? —Detroit Free Press.

War is a terrible thing, of course, but it has its recompense; war songs have succeeded the "Banks of the Wabash" temporarily. —Times-Herald.

The battleships, monitors and cruisers of Uncle Sam's fleet have assisted materially in the spring plowing along the Cuban coast during the week. —Chicago Tribune.

General Blanco a few days ago promised to "throw all the American invaders into the sea." The Spaniards at Mantanzas evidently did not think of that in time. —Times-Herald.

Who is this man, Billy Hohenzollern, that has objections to the United States conducting operations against Spain in the Philippines? What has he got to do with the United States, anyhow, or with the Philippines, either? —Evening Wisconsin.

If the Spanish infantry are no better marksmen than the artillerists in the coast fortification of Cuba, our cowboy regiments will need no other weapons than their lances to capture all the soldiers under Blanco. It needs only the spectacle of a thousand cowboys charging upon the Spaniards, each with his lasso raised and his intended prisoner singled out, to fill up the measure of ridicule poor Spain is winning. —Illinois State Journal.

The call to arms again sweeps over the land. Once more grim-visaged war frowns with all his wrinkled front and bids the soldiery to the nation's battles. Today is one of excitement, hope and expectation. It is a gala occasion in the leave-taking of the boys in blue, young men, filled with fire and energy and strength and courage. There is a halo of heroism about it, which steals away the tinging of parting. 'Tis well, 'tis well to speed the boys with all the cheer and blessings that a friendly farewell can give. For there comes another time and other scenes in the progress of cruel war. There comes a time not of brightness, but of sober hue, a day of pall and darkness, of tears instead of huzzas, of mourning instead of rejoicing. War is hell. Death waits at every portal. So sure as men go to war, so sure men return not from war, or come to the toll of the funeral knell instead of to strains of martial music. Then comes the saddest realization of war's ravages and the sacrifice of human life. —Oshkosh Northwestern.

Helen Gould's \$100,000 subscription to the war fund is a challenge which Hefly Green and Russell Sage are expected to ignore. —Philadelphia Ledger.

Oh, the flood of war songs that will be rushing on us! "Drummer Boy," who "prayed before they died," "Soldiers of the Legion from Millville-on-the-Illend," "Casabiancas" innumerable on "burning deeds," burials of Sir John Moore without number, and "Hohenzollern" where the sun is not as low as the order of verse in which they shall be celebrated; and charges of more "light brigades" than you have time to count! But maybe some of us will give up the ghost in battle, and thus escape—Atlanta Constitution.

It is said the Philippine insurgents have 40,000 men under arms, and these the Spaniards call "Malay devils." As these rebels are in the interior and our squadron off the coast, the Spaniards are between the "devils" and the deep-sea, always a hazardous position to occupy. —Marquette Eagle.

Admiral Dewey's fleet not only remembered the Maine but they also remembered the insulting proclamation of the governor of the Philippines—Oshkosh Northwestern.

He leaves a family of seven children, six boys: Ernest, George, Frank, Henry, Gideon and Rufus, the latter residing in Kansas; and one daughter. Tuesday in Circuit Court suit was begun for B. A. Dunn & Sons against DeKay Bros. for \$25,000 damages, alleging fraud in the sale of the Whitewood Plain-dealer and the Belle Poudre (S. D.) "Lanky Bob" Talks War.

Robert Fitzsimmons, champion pugilist of the world, would like to repeat that Carson incident on the whole Spanish army. He says he thinks he could settle Weyer with one crack of the solar plexus, and as for Blanco a little upper cut would dispose of him. "Lanky Bob" figures that a whole regiment of Spaniards would give him just one morning's punching bag exercise. The champion likes his own style of fighting the best, and he suggests the enlistment of a battalion of pugilists to take Havana and send Sampson and his ships where they could be of more service, in his opinion. "You see boss, de game is slow now," says Bob, "and lots of de guys in it may have to turn harvest hands in de summer or go hungry. De whole country's mixin' in a fight of its own now, and it isn't any use of us fellows t'inkin we can work up interest in a scrimmage of our own. So I says, let's all of us who's in de game go to war and do up Spain with our fists, and if General Miles don't like our style of fighting, why let's fight his way. Ain't I de top-notch of dem all, and ain't I de one to be in command, and I'm ready and willing to get in de middle of it whenever dey calls time."

Shows Spain's Weakness.

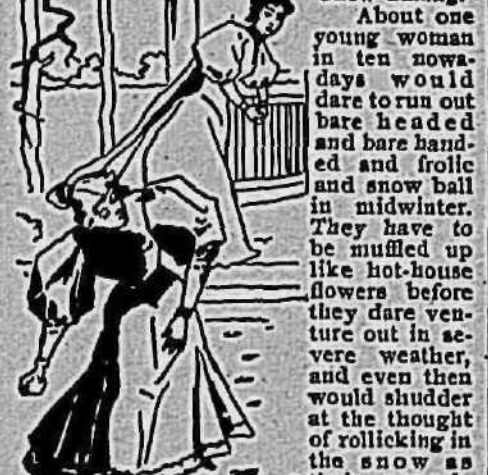

WASHINGTON, April 20.—Secretary Quesada of the Cuban legation here said today that General Blanco's order conscripting Cubans between the ages of 15 and 50 in the Spanish army showed the dire extremity to which the Spanish commander was driven. Mr. Quesada said that up to this time the Spanish authorities have not utilized the services of a single Cuban company or regiment, knowing that the Cubans were at heart devoted to the cause of Cuba, and would take the first opportunity to turn their arms against Spain. For this reason the volunteer forces at Havana and elsewhere are recruited exclusively from Spaniards.

Mr. Quesada says the present move to raise Cuban conscripts will be futile, and such Cubans as are forced to enlist under the Spanish flag will find an opportunity to use their strength in the cause of Cuba. The Cuban military authorities attached to Mr. Quesada's staff in Washington express the same opinion. They ridicule the conscription of Cubans for Spanish defenses, saying that the danger which has kept General Blanco from utilizing these forces thus far will be doubly great now that the Cubans are aware the United States has taken up their cause.

The trouble lies in the fact that too few women enjoy perfect health and strength of the special womanly organism. A woman who is not well and strong locally cannot enjoy good general health. Dr. Pierce's Favorite Prescription cures all weakness and disease of the delicate and important organs concerned in the female and motherhood. It is the most perfect and scientific remedy ever devised for the peculiar ailments of women. It restores womanly power, strength and vitality. It tones and builds up the nerves which have been shattered by suffering and disease. It corrects all irregularities and derangements and stops exhausting drains. It restores weak, nervous invalids to perfect health. It is intended for this class of disorders and is good for no other. It is the discovery of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalid Hotel and Surgical Institute at Buffalo, N. Y. No other known medicine can take its place.

It has been tried with female weakness and writes Miss Jean Connor of Canfield, Clarion Co., Pa.: "I doctored for it and did not get better. At last I commenced taking Dr. Pierce's Favorite Prescription. I got better right along and when I had taken four bottles was cured. I recommended the 'Favorite Prescription' to a friend of mine. She has been using it and thinks it is wonderful."

GREAT VICTORY AT SEA.

Terrible Destruction Dealt the Spanish War Vessels.

FLEET IS BURNED AND SUNK.

Comodore Dewey's American Shells Did Awful Havoc at Manila.

VENGEANCE FOR THE MAINE.

Madrid Admits Crushing Defeat and the Loss of 200 Men.

Our Asiatic Squadron Almost Annihilates the Spanish Fleet in a Terrific Battle Off Cavite, Near the Capital of the Philippine Islands—One of the Great Naval Engagements of the Age—The Reina Maria, Christina and Castilla Are Burned, While the Don Juan de Austria Is Blown Up—Others Are Sunk to Save Them from Being Captured.

Washington special: The first battle of the war for Cuban freedom has been fought, and victory crowns American arms. The Maine has been remembered and its murdered crew have been avenged in far away waters. The Asiatic squadron of the United States, Commodore Dewey commanding, engaged and completely defeated the Asiatic squadron of Spain in the harbor of Manila, in the Philippine Islands.

Reports of the terrible battle at the time this is written are meager. From the general drift of the dispatches it would appear that Commodore Dewey, with his fleet of five cruisers—the Olympia (flag-

COMMODORE DEWEY, HERO OF MANILA.

ship), Baltimore, Boston, Concord, and Raleigh—and the gunboat Petrel approached the shore under cover of the darkness on Saturday night and at daybreak Sunday morning steamed into Manila Bay, where he found himself confronted by the Spanish fleet, which had not sailed away, as had been stated, and the shore batteries. Numerically the odds were against him. To our six cruisers and one gunboat were opposed eight Spanish cruisers and five gunboats. To our 118 guns were opposed 148 guns. But the American vessels were stancher and stronger, and American seamen and gunners—there are no better in the world. The action began at once and there were two engagements during the day, the result of which was the destruction of the Reina Christina (the flagship of the Spanish squadron), the Don Juan de Austria, whose commander was killed, and the Castilla. Madrid dispatches say that others were sunk to avoid capture and that the American fleet was severely damaged. There are no intimations, however, that any American vessel was destroyed. If there had been the news would have been sent out by the Spaniards speedily and exultantly.

Under the protection of the guns of the Manila fortifications the Spanish warships opened fire on the American fleet. For several hours the harbor resounded with the roar of the guns, the crashing of steel and timbers, the shrieks and groans of the wounded. Thick clouds of smoke at times almost obscured the opposing fleets from each other. A well-directed shot reached the iron cruiser Don Juan de Austria, a vessel of 1,100 tons. A terrific explosion followed and the ship was blown up.

There was a heavy loss of life among the Spanish. Captain Cudazo, commanding the Maria Christina, was killed. Commodore Montojo, commanding the fleet, shifted his flag from the Maria Christina to the Isla de Cuba, a much smaller steel protected cruiser, just before the Christina sank.

From the tenor of the dispatches it seems certain that the Spanish Asiatic fleet has been wiped out and that all that was saved was Spanish honor, a flimsy sort of salvage, which will not prove specially consoling to the Spanish people.

This crushing defeat is but the beginning of the end. If the Spanish vessels which left Cape Verde are crossing the ocean, which is doubtful, they will never go back. Spain will lose another fleet. Meanwhile the North Atlantic squadron will tighten its grip upon Cuba, reducing the fortifications of Havana as it has those of Matanzas and Cabañas, while it opens up communications with the insurgents under Gomez and Garcia.

WASHINGTON WILD WITH JOY.

News of Victory Off Manila Met with Patriotic Acclaim.

The national capital was delirious with joy Sunday night over the news of the glorious naval victory in the Philippines. The bulletin boards in front of the newspaper offices were surrounded all the evening by enthusiastic cheering crowds, and at midnight the broad avenues were still thronged with excited groups discussing the meager details of the battle, while loads of scrambling newsmen filled the city with the noise of their cries of extras.

Not since the dark days of the great civil conflict of a third of a century ago have the people of the capital city been so profoundly moved by war news. Said President McKinley when he was shown the Madrid dispatch regarding the engagement between Dewey's squadron and the Spanish fleet off the Philippines, "That looks favorable. If the Spaniards admit that much, Dewey must have won a substantial victory."

The first news of the battle received in Washington came in a brief cablegram from Madrid about 8 o'clock Sunday evening. As the night wore on the cable continued to sing the news of victory for the squadron of Admiral Dewey and the interest grew into tremendous excitement. Ordinarily, Washington is the quietest of cities on Sunday, but as bulletin after bulletin was read in front of the newspaper offices, each successive one conveying information more gratifying than its predecessor, the crowds in the streets became uproarious.

Good as well as bad news spread rapidly and by 10 o'clock the streets were crowded with people, all discussing the one exciting topic of the hour. While victory had been expected, the news of it—coming as it did from Spanish sources—gave rise to the patriotism of the people which has been pent up for days. It was a spontaneous outburst of patriotic feeling that scarcely knew bounds. Admiral Dewey's name was on every lip and his praises were sung in the rejoicings of the people.

WILL NOT ADJOURN.

Congress to Remain in Session During the Progress of the War.

"Congress, according to what most of the leaders say, is likely to remain in session until the war with Spain is over. If the struggle should be prolonged until December, it is most important that it should, in view of the possibility of complications with other European nations. A number of Congressmen look for interference on the part of the several powers, whose interests and sympathies are with Spain, and decidedly against the United States or any strong republic. It is probable, however, that during the hot summer weather, should the war continue until then, brief recesses will be taken, and the members generally will remain close to Washington, so that they can return on short notice."

SPAIN FEELS HUNGER.

War Is Causing a Rapid Rise in Prices of Food.

A dispatch from Madrid says that the effect of the war on the price of food is beginning to be felt acutely. An impending rise in the price of bread in Madrid and the provinces is announced. The manufacturers at Palma, Majorca, have been compelled to reduce their work and discharge many employees. Thousands of artisans and their families are in distress. Another dispatch from Madrid says the Spanish Government is bewildered by the attitude of Great Britain. The Spanish official professes to believe that the people and the Government of England are not in accord, and that the official acts of the British Government are due to some secret compact with the United States.

Are Massing at Santiago.

Advices received at Kingston, Jamaica, show that the Spaniards have abandoned Carajao, Jigari, and other important interior cities in eastern Cuba, and are concentrating at Santiago. The rebels have taken possession of the abandoned towns. The insurgent leaders in eastern Cuba are urgently appealing for food.

Guards for Powder Mills.

Owing to the recent destruction of powder mills at Boston, Pa., and Santa Cruz, Cal., by explosions thought to have been caused by Spanish spies, managers of eight big powder companies having their western headquarters in St. Louis have ordered double guards placed at all points where powder is stored or manufactured.

Fears of Yellow Fever.

There is grave danger of an outbreak of yellow fever on the blockading fleet. The Navy Department is said to have had intimations that preliminary signs of the disease are already apparent on several ships.

TWO FORTS SILENCED.

Fort Cabanas and Mariel Fired On by the Flagship New York.

The flagship New York, while cruising westward along the Cuban coast, went near enough to invite shots from the shore for the purpose of learning with what guns the Spanish could oppose the fleet of the westward of Havana. Marking the western end of the island, toward Port Cabanas, were two small batteries, neither mounting modern high-power rifles. These tried to shoot at the torpedo boats Porter and Driscoll, which were running along astern of the New York. The flagship, being broadside on, promptly replied as soon as she got range, and sent shell after shell into the little parapets which screened the gunners and above which the gunners could be seen. Twelve shots were fired from the New York, and there was no reply after the fourth. The New York's gunners had the range and shot right into the earthworks, tearing up sand and mortar, but fell in showers. With the guns dismounted, the gunners fled. The fire silenced the New York moved on her course. It was impossible to tell through glasses whether any were killed, but the New York had gained the desired advantage by drawing fire from these batteries and learning their strength. They were not at all formidable. No shot struck the flagship, the shells falling short or going wide.

Causes Vast Outlays.

The call of the President for 125,000 volunteers and the passage of the bill increasing the regular army to 61,000 men has forced a revision of all the army estimates. Paymaster General Stanton has applied to the Secretary of War for fifty additional paymasters and for twenty-five additional clerks in the pay department. He also sent his estimate for a deficiency appropriation of nearly \$6,000,000 for the payment of the army during the present fiscal year and for \$40,000,000 for the pay of the army for the fiscal year ending June 30, 1899.

No Women Nurses.

Surgeon General Sternberg of the army has received applications from over 1,200 physicians, who have offered their services to the Government. He has been obliged to issue a circular letter declining these offers. He says that comparatively few contract surgeons will be required in the regular army, and he has nothing to do with the volunteers. No female nurses will be sent to Cuba or to hospitals on the Gulf coast.

Blow Up Wreck of the Maine.

The State Department learned Sunday through its secret agents that the wreck of the battleship Maine, lying in Havana harbor, had been destroyed by the Spanish authorities. It is supposed by officials of the administration that this action on the part of the Spanish authorities had been taken to prevent raising of the wreck after the capture of Havana. This information has intensified the desire to "avenge the Maine."

Patrolling the Channel.

Two Spanish torpedo boats and a large armed ship were sighted cruising at the entrance of the English channel.

CARRIES ORDERS TO GOMEZ.

United States Officer Reaches Camp of the Insurgent Commander.

Lieut. Henry H. Whitney of the Fourth United States Artillery reached Gen. Gomez's camp Friday night with an escort provided by Col. Bermudez, who met him on the coast, near Calbarien, Tuesday morning. Lieut. Whitney carried letters to the insurgent commander-in-chief and instructions from Gen. Miles of the United States army. These instructions direct the Cuban army to move to a point where they will unite with an army under Brig. Gen. Nunez, which is to be equipped by the United States. Nunez's army will bring along complete equipments for 30,000 men.

A point on the northern coast is to be seized and fortified as a base of supplies. The commander-in-chief and Lieut. Whitney naturally declined to reveal to correspondents the point selected for the base, but the Cuban officers say it is Cardenas. From the same source it is gathered that the first offensive action of the allied troops is to be against Matanzas, which is only twenty-five miles from Cardenas. The idea is that Captain General Blanco will not dare weaken the force he has gathered for the defense of Havana to relieve Matanzas. This point once taken, the base of operations will be transferred to that city, and the investment of Havana will follow.

COST OF TWO MONTHS' WAR.

The Increased Expenditures Will Be Approximately \$20,000,000.

The Secretary of War estimates that deficiencies in appropriations required for the use of the War Department for the remaining two months of the present fiscal year will aggregate \$24,019,097. The deficiency in the deficiency appropriation asked for are as follows, cents omitted:

Signal service of the army	\$21,000
Pay, etc., of the army (volunteers)	5,790,901
Pay, etc., of the army (regulars)	1,425,253

Key West special:

The flagship New York, monitor Puritan, and cruiser Cincinnati, under Admiral Sampson, on Wednesday afternoon bombarded the Spanish batteries that were in position and in course of construction at the entrance to Matanzas harbor. They were pretty thoroughly destroyed.

The flagship was first fired upon by the batteries on Point Rubal Cava and Point Maya, while the Puritan, New York and Cincinnati were reconnoitering for the purpose of locating and ultimately destroying the works the Spaniards were

building. The New York steamed in between the batteries, and opened both broadsides on the Spaniards. The Puritan engaged the Cape Maya battery and the Cincinnati went to starboard of the New York, close up to the land, and sent a broadside of shells into Ruba Cava. The batteries returned the fire, but not one of the shots took effect. They fired

FORWARD REVIEW.

Emergency Taxation Measure Is Approved by the House.

The war revenue bill passed the House Friday afternoon at 7 o'clock by a vote of 181 to 120. The anti-militarist vote was cast by the Republicans. The bill was introduced by Rep. William D. Foulke of New York. It provides for the collection of a tax on the sale of cigars, tobacco, and other articles of luxury. The point of difference was the proposed issue of \$500,000,000 of bonds, with the proceeds of which to obtain funds to carry on the war with Spain as fast, and whenever, it should be necessary.

The bill as finally passed contained important changes as follows:

Making the increased tax on beer apply to stocks placed in cold storage pending the passage of the bill; authorizing the sale of packages of fine-cut chewing tobacco, as of sundry tobacco of two and two-thirds ounces, reducing the tax on tobacco dealers from \$24 and \$48 per annum to \$12 and \$24 respectively; exempting telegraph messages sent under franks from a tax; taxing promissory notes secured by mortgage on real estate 25 cents; making all telephone messages upon which a toll is charged taxable at from 1 to 5 cents, according to the charge; taxing life insurance policies issued upon the industrial or weekly payment plan a cent for each unit of 5 cents of weekly payment; exempting co-operative assessment companies.

A new schedule of taxes on premiums paid for property insurance, which was also made to include policies of reinsurance and those issued upon profits and losses, was inserted, reducing the tax from 1 percent to 1 percent, and \$1 on all exceeding \$500.

Warehouse receipts given for agricultural products deposited by the actual grower thereof in the usual course of business for sale are exempt.

The tax on proprietary medicines, articles or preparations selling at from 10 to 25 cents, was made one-half cent; the tax on each dollar package of chewing gum, or part thereof, 5 cents. Mineral waters were taxed one-quarter of a cent a pint. The appropriation out of the income tax receipts for the marine hospital service was reduced to \$350,000, and the minimum bond to be sold by the Secretary of the Treasury was reduced from \$50 to \$25, to bring the bonds within the reach of as many people as practicable.

Amendments rejected were offered by Mr. Handy of Delaware and others, reducing the amount of bonds authorized to be sold from \$500,000,000; by Mr. Lewis of Washington, making the bonds payable in standard gold or silver coin—10 to 100; by Mr. Brucker of Michigan, making the bonds payable at the option of the Government in either gold or silver at the present legal ratio of 16 to 1—11 to 13; by Mr. Shafroth of Colorado, making them payable one-half in silver and one-half in gold; by Mr. Vincent of Kansas, making the rate of interest 1 per cent; by Mr. Barlow of California, making the bonds redeemable in lawful money instead of coin.

Mr. McMillin's income tax substitute for the bond issue was rejected—123 to 149.

The debate was participated in by Messrs. Dingley, Hopkins, Newlands, Shafroth, Walker, McMillin, Grosvenor and Berry.

DEATH IN A STORM.

Wild Wind Works Havoc in Many States.

The tornado which swept across southeastern Dakota and northwestern Iowa Saturday night killed a number of people and wrecked a great amount of property. The death loss, so far as known, is eight and the property loss exceeds \$100,000.

But meager reports have been received. The towns touched were Valparaiso, Neb.; Elk Point and Richland, S. D.; Sheldon, Alta, Akron, Maurice, Westfield, Hartley, Archer, Mallard, Whiting, Oto and St. Francis, Iowa.

All along the path of the storm the buildings, for the most part small ones, were razed and considerable damage was done to crops.

The greatest property loss seems to have been at Maurice, where the city and Northrup's department store, St. Paul and Kansas City and Thompson Brothers' elevators, the local slaughterhouse and many residences were destroyed.

Miss Harriet C. Witt, of Belvidere, Ill., has been engaged to take the place in our public school vacated by Miss McMahon. Miss Witt is a graduate of the Belvidere High School.

Miss Kate McMahon has resigned her position in the public school, intending to take a rest, after many years of continuous teaching. Miss McMahon has taught in our schools ever since 1884, with the exception of one year. Six years of this time she has acted as principal.

Expulsion from the Ferry Hall Seminary at Lake Forest is feared by fourteen young women, who have broken one of the strict rules of the school in accompanying fourteen young men to a party without the permission of the faculty or the presence of a chaperon.

The young men are also in the scrape, and fear summary action by the college authorities.

It is said that the young women, aided by their gallant escorts, left their rooms on the first floor of the seminary via windows, when only the crickets and bullfrogs were astir. A report of the occurrence reached the ears of the chaperon, Miss Sargeant, after the ball, and now the young women and men are anxiously awaiting the decision of the faculty.

Golf is giving every indication of being more popular than ever this season, and the activity already shown at the Onwentsia club, at Lake Forest, indicates a most prosperous season. The entire course of eighteen holes was informally opened yesterday, and in spite of the unpropitious weather a representative gathering of members went out to the clubhouse. A number of the more enthusiastic players did not allow the dampness to keep them from trying the links. Others contented themselves with examining the clubhouse, where refreshments were served all day.

Mr. Charles Fargo took a party out on a drive about the grounds was taken. At 6:30 o'clock Mr. Fargo gave a dinner for twelve. At noon a number of luncheon parties were given. It is the intention this season to give special attention to dinner, supper and luncheon parties.

The clubhouse was informally opened two weeks or more ago, and it is doubtful if a formal opening will take place, although Decoration day is to be made a special event. A series of golf and tennis games will be played and a number of dinner parties will be given. Mr. Sydney Williams, secretary of sports and pastimes, has as yet no regular schedule of games arranged, but will soon prepare a list of matches and tournaments.

The farmer, the mechanic and the bicycle rider are liable to unexpected cuts and bruises. DeWitt's Witch Hazel Salve is the best thing to keep on hand. It heals quickly, and is a well known remedy for piles. D. Sugar, Lake Villa; Edgar L. Larkin, Antioch; Geo. Thomson & Co., Grayslake.

W. H. Rose was in the city last Thursday.

A scheme is in progress to give the people of Millburn and vicinity the benefit of a thousand volume library at an exceedingly small cost. Our present Library Board and others who have been made acquainted with the plan endorse this library very highly, and it is hoped that everyone will contribute to forward this exceptional offer. There are special inducements in connection with this library, whereby the expense of maintenance is exceeded by the financial savings to members. This is a rare opportunity, which none should fail to appreciate.

Sporting Events.

The wrestling bout between Yousuf, the "terrible Turk" and Ernest Roelver, the American champion, ended in a fight Saturday night at the Metropolitan Opera House, New York city, and Referee Herman Wolf declared the match "no contest."

The Wheel of Fortune made every post a winning one in the four-mile race at Ingleside Saturday afternoon for the Ingleside stakes of \$3,500. There were only five horses in the race, the Wheel, Buckwa, Sir Dilke, Sweet Favordale and Sharon Lass, and they finished in that order and strung out over two furlongs.

Horsemen and horses from all over the country are in Chicago to attend the opening of the local racing season Thursday at the Lakeside track. Everything is in readiness for the inauguration of what promises to be a most successful series of race meets. The races at Lakeside will last fifteen days and will be conducted under the auspices of the Lakeside Jockey Club. Five or more events will be run each day and on days with favorable weather it is probable the card will be increased. During the meeting the sum of \$80,000 will be offered in purses. Some of the speediest horses in America will run for portions of the money. Seven hundred thoroughbreds are now quartered at Lakeside, and 100 more are expected at the stables this week.

Entries for the stake events at Washington Park and Lakeside closed Tuesday. They will not be given out for some days yet.

The Louisvilles defeated the Chicago team Tuesday in a close game. The Colonels have made the trip to Chicago heretofore for the exclusive benefit of the Colts, but Tuesday they reversed proceedings and dropped the orphans two rings on the pennant ladder. The score at the close of the game stood 10 to 9 in their favor.

The game between the Brooklyn and Philadelphia teams Tuesday resulted in a victory for the former. Score 9 to 6.

A Narrow Escape.

As if utterly unaware that a new bicycle ordinance was in force, he jauntily wheeled along the sidewalk of a brick-paved street, when he might just as well have been on the road, says Short Skits. One of the special bicycle police detail was within seeing distance and he increased his speed until a little ahead of her. Then he dismounted and waited for her to come along.

He was evidently embarrassed for having to interrupt a lady wheeler, especially one of middle age, and of matronly measure.

"Ah—ah—excuse me, madam," he nervously explained, "but I'll have to take you down to the justice's office."

With a coolness that entirely disarmed him, she smiled as she replied:

"Oh, sir, that's just what I've been waiting for over thirty years. Come on."

He escaped around the corner and looked back to see her continuing up the sidewalk.

Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure

ELI P. BABCOCK, of Ayres, N.Y., a veteran of the Red Army and a soldier for thirty years of the Babcock-Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' New Heart Cure. I suffered for years, as a result of army life, from sickness which affected my heart in the worst form, my limbs swelled from the ankles up, I bloated until I was unable to button my clothing, had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the while I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as it by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, and contain no harmful ingredients. Book on the heart and nervous system free. Address: DR. MILES MEDICAL CO.,

Elgin Butter Market.

Elgin, May 2, 1908.
The increased offerings today showed a marked
contrast to the light showing made for the past
few weeks. First bid was at 16 1/2 cents, but next
was on all lots at 15. It was evident there were
two elements on the Board. Reports were that
cattle were on pasture, and weather especially
adapted for a rapid growth of grass. Only two
lots were sold on the call, both at 16 1/2 cents. Bids
of 15 to 16 were on all others, but not accepted.
Sales of the members of the Elgin Board for the
week ending April 30, '08, were 11,000 tubs,
Chicago 22,000 pounds. The quotation committee
declared the official market steady at 16 1/2 cents.

Richmond is to have a co-operative

creamery. The plant will be in operation

about the first of June.

Postmaster Williams has placed the flag

of Cuba underneath the stately emblem of

America, at the postoffice.

A sample of the pop made at the new

pop factory at Grass Lake has been placed

on sale here. It makes a very fine drink,

and is far superior in many respects to

most of the pop manufactured now-a-days.

We do not believe that our readers will

lack reading matter for some few days to

come when the present issue of THE

NEWS is placed in their hands. The list

list alone will give any of our readers who

are diligent enough to peruse it a couple of

days employment at least.

The young ladies of Whitewater, Wis.,

recently advertised a "bloomer" social and

all the town turned out, the feminine popu-
lation to get ideas on spring cycling cos-
tumes, of course; while the young men
came for the good of the cause. The
"bloomers" were there in profusion, but
they were not of the kind looked for by a
large percentage of those present. The
"bloomers" were flowers and they were
"blooming" everywhere.

"Editing this paper is a nice business,"

says the Marionette Eagle. "If we publish

jokes people say we are 'rattle-headed'.

If we don't we are an old fossil. If we

publish original matter they say we don't

give them selections enough. If we give

them selections they say we are too lazy to

write. If we remain in the office we ought

to go out and hustle for 'locals'; if we go

out then we are not attending to our busi-
ness. If we don't go to church we are a
heathen. If we do then we are hypocrites.

If we wear old clothes they laugh at us; if

we wear good ones they say we have a
'pull.' Now what are we to do? Just as
likely as not some will say we stole this
item from our exchanges, and so we did."

Many old soldiers now feel the effects of

the hard service they endured during the

war. Mr. Geo. S. Anderson, of Rossville,
York county, Penn., who saw the hardest
kind of service at the front, is now fre-
quently troubled with rheumatism. "I
had a severe attack lately," he says, "and
procured a bottle of Chamberlain's Pain
Balm. It did so much good that I would
like to know what you would charge me
for one dozen bottles." Mr. Anderson
wanted it both for his own use and to
supply it to his friends and neighbors, as
every family should have a bottle of it in
their home, not only for rheumatism, but
lame back, sprains, swellings, cuts, bruises
and burns, for which it is unequalled.
For sale by W. H. Emmons, Antioch;
Geo. Thomson, Grayslake.

We must again call the attention of our

correspondents and others to the necessity

of signing their names to all communi-
cations sent us for publication. If you do
not wish to have your name appear in con-
nection with a communication you send,
why say so, but do not fail to sign your
name to some portion of your letter, just
the same. In no instance will the name of
a contributor to the paper be made known
to the public unless by the special consent
of him or her, unless there should arise an
occasion where in justice to ourselves we
would be compelled to disclose a writer's
identity, as we do not assume responsibility
for the utterances of our correspondents.

We must request all who have personal

grievances or attacks to make on the pri-
vate character of any one to adjust the same
outside of the columns of a newspaper.
Write nothing for publication in a news-
paper that you are not prepared to prove,
avoid all attacks on the character and
reputation of anyone, no matter whom,
and above all, sign your name to all com-
munications.

Got a Franchise.

At their meeting Monday night the

Libertyville Village Board granted to R. C.

Weeks a franchise for an electric railroad.

The ordinance recites in full the rights and

privileges thereby granted and appears in

another column. Mr. Weeks and the com-
pany of which he is a member and repre-
sentative propose to build an electric road,
starting at Libertyville and continuing to
the "chain of lakes" in northern Illinois
and southern Wisconsin. As stated in a
previous issue the St. Paul railroad com-
pany will put on more trains to Libertyville
to connect with the electric road which will
undoubtedly make this the most popular as
well as the cheapest route to the lakes.
Vast improvements are contemplated at the
various summer resorts, which will tend to
make them the most popular in this section
of the country. Winter sports and amuse-
ments will be arranged for on a large scale,
with a view to attracting traffic for the new
road, and patrons to the lakes during the
winter months.

The scheme is an entirely feasible and

practical one and the men back of the com-
pany who propose building the road are re-
liable.—Lake County Independent.

her classes.

W. S. Westlake attended the funeral of
Fred Shore in Chicago the past week. Mr.
Shore, it will be remembered, spent some
time in this city the past winter and was
well liked by all who knew him. His funeral,
which occurred Thursday last, was largely
attended by friends and acquaintances, who
expressed in glowing terms their appreci-
ation of his many amiable qualities.

Skilled in Athletic Sports.

In speaking of Chicago young women
who have won renown in athletics the
Times-Herald has this to say of Miss Flo-
rence Brophy, a young woman well known
to the residents and habitués of the Fox
Lake summer resort:

One of the few Chicago girls who un-
derstand the ways of the wind and the
ways of a sail boat is Miss Florence Bro-
phy. For three years she has been the
captain of a pretty craft called the Sur-
prise, which sails the waters of Fox Lake.
She never learned the art of steering, sail-
ing or shifting according to the diverse
winds, but intuitively it all from intuition
and love of the sport. Miss Brophy in her
three years of nautical experience, has sail-
ed in ten races and won seven of them.
Two cups have become her trophies, and
several prizes. She is noted for her care-
ful seamanship and for her knowledge of
the wild ways of the deceitful Illinois
squall. Only one upset has ever befallen
her, and that was in one of those fierce and
unexpected gusts of wind which makes
like sailing so dangerous. Miss Brophy is
not "the cook and the maid" and the cap-
tain bold, and the crew of the captain's
girl" on board the Surprise. Although she
fills the office of captain, her sister, Miss
Jean Brophy, makes an able second officer,
mate and crew, having more recently mas-
tered the intricacies of sailing; both sisters
swim.

Miss Brophy is also a huntress. She is
fond of rifle shooting, and when nothing
better offers does not scorn a target. She
has quite a variety of shooting irons, all of
the most up-to-date and complete descrip-
tion. Small birds have been Miss Bro-
phy's game so far.

Her love of outdoor exercise does not
cease with the exhilaration and excitement
of sports, the love of racing and shooting
birds a-wing. She is fond of walking,
riding, driving and the now-a-days much
scorned bicycle.

Salute.

The yankee tar has a soul for war,
As fierce as a bird of prey,
And never a foe has dimmed his star,
Nor driven his ships to bay.
But as for the Spanish sailor,
A craven soul is he—
And we'll train our guns on the Spaniard's sons
Till their fleets are swept from the sea!

Oh, well for the shr of the mariner,
On America's soldier,
But never a power was conqueror,
O'er a people brave and free,
For the Spanish troops' derision
Who tackle us on foot.

An open field for assassins
Makes graves for the friends of woe,
While the scepter of lust is ground in the dust
And the hope of its hate laid low.

Then hail to the flag of freedom,
Wherever it is unfurled,
And hail to its soldiers and saviors
Who fight us no men fight—
Till right is even stronger than might
And sunshine covers the world!

High Water Market.
EIGHT, May 2, 1898.

The increased offerings today showed a marked contrast to the light showing made for the past few weeks. First bid was at 16 1/2 cents, but next was on all lots at 15. It was evident there were two elements on the board. Reports were that cattle were on pasture, and weather especially adapted for a rapid growth of grass. Only two lots were sold on the call, both at 16 1/2 cents. Bids of 15 to 16 were on all others, but not accepted. Sales of the members of the Eight Board for the week ending April 30, '98, were 11,000 tubs. Cheese 22,000 pounds. The quotation committee declared the official market steady at 16 1/2 cents.

The list this year is not as long as it was last year. The reason of its exceeding length was because of the railroad agent list. Editor Burke of Antioch, when in town reading proof for the list, was called to the office by a messenger. The list makes 46 names of matter this year as against 52 names last year. It costs money to have work done, and there is no wonder THE NEWS fought for it in the list.—Waukegan Daily Sun.

Salute.
The Yankee tar has a soul for war,
As fierce as a lion of prey,
And never a foe has dimmed his star,
Nor driven his ship to bay.
But as for the Spanish sailor,
A craven soul is he—
And we'll train our guns on the Spanish sails
Till their fleets are swept from the sea!
Oh, well for the star of the mariner,
On America's soldier,
But never a power was conqueror,
Over a people brave and free.
For the Spanish troops' dervision
Who tackle an iron foe,
An open field for assassins
Makes graves for the friends of woe.
While the sceptor of host is ground in the dust,
And the hope of its hate laid low.
Then hail to the flag of freedom,
Wherever it is unfurled,
And hail to its soldiers and sailors
Who fight as no men fight—
Till right is even stronger than might
And sunshine covers the world!

Whooping Cough.
I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgetstown, Pa. For sale by W. H. Emmons, Antioch; Geo. Thomson & Co., Grayslake.

Our Spring Line

of shoes has arrived. We've looked it over carefully and we are more sure than ever that we made no mistake in securing SELZ SHOES for the feet of our customers. Every Selz shoe is a solid shoe and is made by the manufacturers who in 25 years have grown from small beginnings to be the largest manufacturers of shoes in the world. They did it by making the best shoes for the money. We get the benefit and so do you, of their experience and capital.

The New Union ELEVATED Loop in Chicago
IS NOW OPEN
It runs on Van Buren St. directly in front of the ..

Chicago, Rock Island & Pacific Station
Passengers arriving in Chicago can, by the new Union Elevated Loop, reach any part of the city or, for a five-cent fare, can be taken immediately to any of the large stores in the downtown district.
These facilities can only be offered by the "GREAT ROCK ISLAND ROUTE."
If you will send a two-cent stamp for postage we will mail you at once a new bird's-eye view of Chicago, just issued, in five colors, which shows you just what you want to know about Chicago and the new and elevated system. This map you should have, whether you live out of the city and expect to come to it or whether you now live in Chicago and you and your friends contemplate making a trip.
